Profile

Motivated Computer Science (AI/ML) student currently in **3rd Year – 2nd Semester**, with strong interest in Machine Learning, NLP, and Web Development. Fresher with hands-on project experience in building real-world solutions.

Skills

Languages: Python, Java, SQL
Web: HTML, CSS, JavaScript
Tools: Git, GitHub
Core: Machine Learning, NLP, Data Structures

Projects

Garbage Classification System (IEEE Research Project)

- Developed CNN-based model for waste classification
- Improved model accuracy and performance

Fake News Detection using NLP & Deep Learning

- Built system using Transformer-based models
- Applied NLP techniques for text classification

Plant Web Application – Smart India Hackathon (SIH)

- Developed responsive web application using HTML, CSS, JavaScript
- Worked collaboratively in a team environment

Education

B.Tech – Computer Science Engineering (AI/ML) SR University *3rd Year – 2nd Semester*

Intermediate Sumathi Reddy Junior College Marks: 870

SSC Kakatiya High School 10/10

Experience

Fresher

- Actively building projects in AI/ML and Web Development
- Continuously learning and applying new technologies

Soft Skills

Communication, Teamwork, Adaptability, Time Management, Consistency, Creativity, Attention to Detail
